

ANTHONY J. CIRINCIONE

Times as of August 2021

QUALIFICATION SUMMARY DPE, ATP–CE-500, CE-510S, CE-525S, CE560XL, CE-750, B737, LR60, L-39 Helicopter; Instructor: Instrument, Airplane, Helicopter & Glider, A&P with IA
Total Time – 12096 **PIC – 8889** **Turbine PIC – 5617**

EXPERIENCE

Owner, Aeromania LLC, April 1992 – Present

FAA Designated Pilot Examiner Airplane Sport Pilot through ATP and Citation CE-500, CE-510 & CE-525 Type Ratings. Train and certify pilots under FAA Single Pilot Exemption 11421. NAFI Master CFI & AOPA Distinguished Flight Instructor for 2018-2021. Contract pilot, domestic and international. Flight instruction to private through ATP students in single, multiengine, and tail-wheel airplanes; gliders and helicopters. Authored book: *Advanced Flight Instruction* ISBN 1-4120-6235-7. Developed Part 135 Operations Specification and held FAA Air Carrier Operating Certificate for Part 135 on-demand charter operations.

Chief Pilot, Red Reflet Ranch, October 2005 – April 2014

Manage all aviation operations for private airport. Forecast and budget 1 & 3 year plans. Maintain fuel farm with 10,000 gallons of Jet-A and 1,000 gallons of Avgas. Increased safety and functionality of airport by creating and obtaining FAA approval of GPS approach. Fly & maintain 3 based aircraft (Citation, Aeronca & JetExec Helicopter). Coordinate training for all crew members. Planned and executed major avionics upgrade on Citation. Converted Exec-90 helicopter from piston engine to turbine to improve high altitude performance.

Author, FAATest.com, September 2002 – December 2017

Develop software for FAA test preparation to include writing explanations for all pilot, flight engineer, and mechanic test questions.

Captain, Valero Energy Corporation, July 2000 – October 2004

Responsible for Part 91 corporate flight operations of a Fortune 100 company. Flew Learjet 60 and Citation X aircraft in domestic and international operations. Developed in-house RVSM training program saving significant training dollars and crew downtime. Researched and acquired digital Jeppesen instrument approach chart system to maximize efficiency and safety.

Instructor, FlightSafety International, April 2000 – July 2000

Taught initial, recurrent, RVSM and ILS CAT II, Learjet 60 ground and simulator courses.

Adjunct Faculty, Embry-Riddle Aeronautical University, April 2000 – July 2000

Created syllabus for and taught Airframe and Power Plant mechanics class: AMT-240.

12th Air Force Headquarters Flight Examiner, July 1998 – August 2000

Administered flight and simulator evaluations on various rated and non-rated personnel in several types of assigned aircraft. Coordinated team visits and evaluated flying operations at several Air Force bases. Implemented procedural changes, and advised commanders on key aviation issues. Investigated alleged violation of FAA Regulations by an A-10 Demonstration Pilot bringing a graceful conclusion to a delicate situation.

20th Fighter Squadron Chief of Weapons, Fighter Weapons School Instructor WSO, July 1995 – June 1998

Managed \$2.8 million annual munitions account in an international flying squadron – all missions flown with the optimum weapons load. Published the “Weapons Words Newsletter” greatly improving the flow of information through the squadron – recognized by the Air Combat Command Inspector General as the Best Weapons and Tactics program. Earned Top Gun award for 3rd Quarter 1996, then led initial cadre in conversion to new variant of F-4 with APG-65 radar – recognized by the Air Combat Command Inspector General as an Outstanding Performer. Instructed graduate-level fighter operations for 5 years in a multi-national environment.

EDUCATION

MS Aeronautical Sciences, With Distinction, Embry-Riddle Aeronautical University, 1996

Squadron Officers School, **Distinguished Graduate, Outstanding Contributor, 1995**

USAF Fighter Weapons School, Nellis AFB, NV, F-111 Class 94-BDC, Flying Award, 1994

BS Professional Aeronautics, Summa Cum Laude, Embry-Riddle Aeronautical University, 1988

Aircraft Maintenance Supervisor Course, Davis Monthan AFB, AZ, 1986

AS Aircraft Maintenance Technology, Community College of the Air Force, 1986

VOLUNTEER Safety Officer & Board member Big Horn Soaring Club, Powell, WY. FAA Safety Team Briefing Member. Also volunteered at Wright Flight in Tucson, AZ 1998 to 2000. Flew 1-2 weekends per month in program dedicated to improving motivation and academic performance of students in grades 6 through 12.
